

# Desktop Color Label Printer

## LX2000 **NEW!** COLOR LABEL PRINTER

**LX2000** is Primera's newest and fastest pigment inkjet label printer. LX2000 represents an entirely new product class in desktop label printing.

Large, separate ink cartridges for cyan, magenta, yellow and black keep cost per label low, while print speeds of up to six inches per second produce your labels quickly.

### UV and Water Resistant Labels

The combination of pigment-based inks and various synthetic materials make LX2000 labels highly water and UV resistant. This durability supports applications such as bath and shower products, frozen or refrigerated foods, beverages, and much more. With LX2000, you'll be printing durable labels fast and efficiently, all while saving time and money.

### KEY FEATURES OF LX2000:

- » Prints full color at up to 6" per second
- » Individual CMYK pigment ink cartridges
- » Large ink cartridges keep label costs low
- » Built-in wired Ethernet, USB 2.0 or wireless connectivity
- » Media width of 0.5" to 8.25" (127mm to 210mm)
- » Maximum print length of .050" to 24" (13mm to 609.6 mm)
- » BS5609 Section 3 certified for producing GHS labels
- » 4800x1200 dpi

### Durable Labels - A Complete GHS Solution

For those who need an extremely durable label or more specifically, a GHS (Globally Harmonized System) compliant label solution, LX2000 is the perfect choice. With its pigment ink and Primera's Tuffcoat Extreme Polyjet substrate, the LX2000 has already passed Section 3, BS5609 testing. The testing included removal of print by adhesive tape, abrasion resistance and permanence of print evaluations under extreme conditions, including exposure to UV light and repeated salt spray and immersion. The material and printed images from LX2000 passed in all three categories.
